DETAILED ACTION

This office action is in response to the amendment of January 23, 2006. In making the below rejections the examiner has considered and addressed each of the applicant's arguments.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Stockel (USPN 3,154,914) as set forth in the first office action (04/06/2004).

Allowable Subject Matter

Claims 8-10 are allowed.

Claims 2-4, 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed January 23, 2006 have been fully considered but they are not persuasive. The applicant argues against Stockel because there is no disclosure

of the Stockel cooling channels having a flow guiding surface extending at an angle to the cooling channel axis to create a radial component to the flow in the channel.

The examiner disagrees. As shown in Figures 6 and 7 when the flow enters the area (25) of the cooling flow channel it is pushed circumferentially towards one side of the channel. Then the flow must be radially inwards so that the flow can travel through passages (23), move radially outwards and enter into the discharge area of the channel (26). Thus Stockel clearly teaches of the flow guiding surface providing the flow with a radial component.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
